

Use the Chinese Almanac as a **general guide** to take advantage of auspicious days and maximize your luck!

If you want to have the best date available, please schedule a consultation. Factors to consider include your four pillars of destiny and will need to be computed to give you the most auspicious day. Consultation charges depend on the nature of the activity.

Important activities such as contract signing, negotiation, moving house, start of construction, renovation, surgery, making major purchases, starting a business, submission of documents, and long travels, have a more successful outcome when made on a favorable day.

As a general rule, try to avoid important activities on your zodiac clash days and on days marked as “”; if unavoidable, make sure that you have your *Lightcatchers'* crystals with you!

Be safe, lucky, prosperous and abundant! May your 2017 be filled with more love, light, and blessings!
